Goods in not located export data type - pallet No #95

As part of our regression test pack we noticed that the data type for pallet number on the Goods in not located cumulative export was incorrect. This has now been fixed:

| A | |
|-----------|---|
| Pallet No | C |
| 109,219 | 1 |
| 261,141 | 1 |
| 307,951 | 1 |
| 334,579 | 1 |
| 334,585 | 1 |
| 334,587 | 1 |

| A | |
|-----------|---|
| Pallet No | C |
| 109219 | 1 |
| 261141 | 1 |
| 430348 | 1 |
| 488779 | 1 |
| 626118 | 1 |
| 769414 | 1 |

New page: Goods In Quality Checks #16

A new page has been added to allow the QC team to add dimensions to any stock which currently do not have any saved.

Stock is held in quarantine at point of GR and shown in a new report

| SKU | SKU Description | Location | Qty | Actions |
|--------------|--|-----------|-----|---------|
| OVFL03RR-P | Ryther Overflow Grill - Round Fit | RC1CG0042 | 515 | |
| OVFL03CR-P | Carlton Overflow Grill - Round Fit | RC2CG0131 | 510 | |
| OVFL03R-P | Ryther Overflow Grill | RC1CH0172 | 510 | |
| 999BBPB-P | Issue 47 Jan - June 2024 Big Blue Book | RA6AK0312 | 443 | |
| OVFL02CR-P | Carlton Overflow Grill - Round Fit | RC1CG0082 | 310 | |
| VBS428K-P | Round Bar Valve w/ Slider Rail Kit | RD6DC0192 | 240 | |
| VPS039-P | Square Flange Only For Conc Plates | RA1AC0222 | 183 | |
| TT-CAT5BLK-P | Trisen CAT 5 Retainer with Tool Black | RC2CF0232 | 114 | |

Operatives can then enter the dimensions for each line by clicking the Actions button:

Update Dimensions [X]

Length(CM): 30.00

Depth(CM): 60.00

Width(CM): 60.00

Pack Weight(Kg): 18.00

Pack Density: 166.67 Kg/m³

Quarantining of stock - Persistent reason text #127

We added the quarantine reason to the top section - so even if you move part of this stock, the reason and date will still show there.

We added a warning to the bottom section to warn that if stock is relocated, there is no guarantee this section will work.

We have made some changes to prevent the system creating new stock IDs when moving the full qty - so this should help keep the history in tact if you move all of the stock together.

PI Tool: Increasing stock in discrep does not clear discrep status #130

We have fixed an issue whereby the Under Investigation flag was not being cleared if the PI tool was used to confirm a higher number than on record.

SKU Usage by Warehouse #109

A new report has been created to allow users to view the average weekly Pick Count, Unit Qty, or both.

The report calculates the average weekly usage by taking all pick data from the date you enter through until midnight the previous night.

| SKU Number ^{↑↓} | SKU Description ^{↑↓} | Bolton Qty ^{↑↓} | Bolton Pick Count ^{↑↓} | Waltham Qty ^{↑↓} | Waltham Pick Count ^{↑↓} |
|--------------------------|---|--------------------------|---------------------------------|---------------------------|----------------------------------|
| BAYC014-M | Fitzroy Pan C/C (Exc' Seat) | 1.0 | 1.0 | 0.0 | 0.0 |
| BAYC015-M | Fitzroy Cistern Ceramic Lever & Fitting | 1.0 | 1.0 | 0.0 | 0.0 |
| BAYF149-M | Fitzroy Traditional Toilet Seat | 1.0 | 1.0 | 0.0 | 0.0 |
| BEX827N-P | 800 F/S Single Drawer Unit | 1.0 | 1.0 | 0.0 | 0.0 |
| BFH805-P | Mono Handle 95mm x 45mm (Fluted) | 4.0 | 4.0 | 0.0 | 0.0 |
| BIN805-P | Binsey Mono Basin Mixer (P/B Waste) | 4.0 | 3.0 | 0.0 | 0.0 |
| NCG506-P | Square BTW Pan & SC Seat | 1.0 | 1.0 | 0.0 | 0.0 |

Report data can also be exported to excel.

Default sort on replens #126

We have added logic to enable users to set the sort order for replen sites when using the Site Replen tool.

On building details there is a new field "Replen sort order":

NEXUS [Logout](#)

Details

| | |
|--------------------------------|---------|
| Description | Swindon |
| Internal Site: | Yes |
| Always scan bay when tipping: | ✗ |
| SKU Dimensions at QC (not GR): | ✗ |
| Replen Sort Order: | 7 |

Address

Full Address ATLAS HEATING(HUDDERSFIELD)

ALBERT STREET
HUDDERSFIELD

Picking | Despatch Lanes

Picking - Discrepancy Lockout Settings

| | |
|---------------------------------|-------------------------------------|
| Number of SKU's before locking: | 0 |
| Number of units before locking: | 0 |
| Locking Interval (Hrs): | 0 |
| Store Pick Enabled: | <input checked="" type="checkbox"/> |
| Ecom Bulk Order Threshold | 10 |

The higher the number, the lower down the list that site will be on the report.

e.g.

Waltham Abbey has been given the sort order zero:

Homefleet and Ecomm displayed separately #96

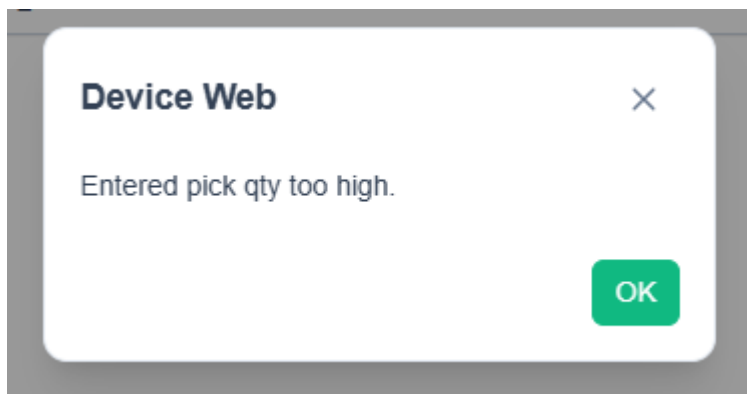

Another change to the replen request process whereby any stock marked as Homefleet or Fixed Destination are displayed separately.

Duplicate Confirmation Page on Relocate Stock #139

An issue was reported whereby the SKU qty confirmation page would display twice intermittently. After investigating we've built and tested the fix which will be part of this update.

Overpick message change #141

Over-pick message changed from "Out of range" which wasn't very helpful.

Pick process loops back to select order after each line #142

This has now been resolved enabling pickers to complete orders much faster where an outbound order pick has more than one line.

BD4 Ltd
Logistics Meets Tech

Under the Hood

Remove reliance on ATMS & ATMSWS in despatch areas.

We've done work to avoid Open Orders Out deadlocks.

PI logging is now more sensible and consistent.
